*Mr Karaiadiselman, Director
CADD Centre*

“Reflecting on 2009, we at CADD Centre, regard it as the year of long term strategic accomplishments. We would even say that we were reborn in 2009!”

Greetings to you!

CADD Centre corporate office wishes you, your family and friends a happy and prosperous new year 2010. May this New Year bring lots of peace, joy, success and satisfaction!

While 2009 has turned out to be quite an eventful year. It was a year of surprise and challenging time for the world, for CADD Centre it is year of rebirth and year of long term strategic accomplishments. You will be surprised to know many things happened during 2009 on completion of the reading.

As you may be aware, beginning of 2009, we started working with Autodesk on implementation of Autodesk Revit Architecture training across the country. This is the first time we started working on the product. It was a great success and today, in one year we have implemented Autodesk Revit Architecture over 150 locations with 500 licenses of ARS with an investment of over USD 4,00,000. From the beginning of the ARS launch, we have trained over 1000 engineers on Revit as on today.

CADD Centre became the most preferred training partner for Pro/Engineer Wildfire software from Jan 2009. We invested over USD 3,00,000 on 1000 copies of Wildfire software. PTC did “Training the Trainer” program for more than 100 trainers across country and acknowledged stating CADD Centre is their most preferred training partners in India. Mr. Rafiq Somani, The Country Manager, PTC had launched three advanced training programs exclusively offered by CADD Centre.

CADD Centre had signed up with Dassault Systems as their Vocational Education Partner for India during this year. You are aware that CATIA is one of the leading 3D CAD solution used worldwide. CADD Centre has been chosen as their largest network of VEP anywhere in the world. Dassault believes that CADD Centre training engineers would be readily employable.

Project Management training is one of the future opportunity. CADD Centre has become Project Management Institute's Registered Education Partner at 25 locations across the country and the second largest PMI - REP in the world. PMI REP is a status that is not very easy to get.

CADD Centre signed up with Bentley systems as their exclusive authorized training partner for India. CADD Centre has committed to offer STAAD training at more than 100 locations in India. CADD Centre will be the exclusive partners for Bentley Systems for next two years.

Looking back, the years have been excellent. Whatever we have done will do lots of good for our customers and students. We will be able to offer world class training at Indian price. The association will help CADD Centre to learn all the latest technology and best practices from software developers and their international user and transfer the knowledge to our customers in India and abroad.

We wish you all the very best.

Yours Sincerely
S. Karaiadi Selvan
